

# WebCapTel®

CapTel's Next Generation  
[www.sprintcaptel.com](http://www.sprintcaptel.com)

CapTel Customer Service 1-888-269-7477

Much like the CapTel phone mentioned on the previous page, WebCapTel reduces the need for special equipment! All you need is a desk phone, cordless phone or cell phone and a computer with an internet connection.

- 1 Log into  
[www.sprintcaptel.com](http://www.sprintcaptel.com)

- 2 Enter in YOUR phone number and the number you are CALLING, then click on PLACE CALL.

- 4 Captions will appear on your computer screen.

- 3 Your phone will ring first; answer it and wait for your caller to answer.

## Behind the Scene

The "behind the scene" concept of CapTel is the same as using the equipment via voice recognition software, as pictured on the previous page. Registration is required to log in and become a user of the Sprint WebCapTel.
